

Premium Durable Resin

B324 is a thermal transfer ribbon which gives excellent performance on polyester and other plastic labels. This resin is formulated to provide excellent abrasion and solvent resistance and gives excellent print density and definition.

SPECIFIC FEATURES		
Superb abrasion resistance - Excellent solvent resistance - High definition High sensitivity - UL recognized		
RECOMMENDED SUBSTRATES		
Synthetic paper - Film (PET, PVC)		
RIBBON PROPERTY		
ITEM	VALUE	FEATURES CHART
Carrier Thickness of ribbon Color Heat resistance coating Ink melting point Optical density (transmission) Optical density (reflection)	Polyester film < 9.0 um Black Silicone base 110° C > 0.9 > 1.70	

This information is the best currently available on the subject. The results should, however, only be regarded as a general guide to material properties and not as a guarantee.
